WHAT IS HAPPENING FOR PHDS?

- University of Freiburg released their first results from their survey about the working conditions of doctoral and post-doc researchers.
- UniWiND has released a key statement on doctoral supervision, offering structured recommendations to enhance quality, accountability, and training. They call for support systems and sustainable careers.
- The *Wissenschaftsrat* started anew the discussion about employment structures in academia with a detailed publication.

The beauty of science is that it doesn't matter who you are, where you come from, or your gender. The rules and laws of the universe are the same for everyone.
